PRODUCTS AND SERVICES

Business Asset Furniture solves the problem of excess office furniture for both large and small companies. We have over 10 years' experience in the acquisition, relocation and liquidation end of the furniture business. We offer a free appraisal of your inventory and will give your company a written estimate of its worth. If it has no value, we can offer alternative low cost removal plans.

Business Asset Furniture is an environmentally responsible company. We sell most of our liquidated office furniture to recyclers across the country. They, in turn, refurbish the seating, panel systems and filing cabinets which provide them with another lifespan. This, of course, alleviates the problem of more waste into landfills.
